

برزان القابضة
BARZAN HOLDINGS

BARZAN HOLDINGS

Barzan Holdings, the strategic investment arm of Qatar's Ministry of Defense (MoD), is a leading defense and security company that aims to strengthen Qatar's sovereignty and strategic position by investing in the long-term development of its human capital and armed forces capabilities.

As the commercial gateway for the country's military industry, Barzan Holdings prioritizes impactful collaborations and global partnerships that foster knowledge exchange and investments into innovative defence technologies to keep Qatar at the forefront of present and future market opportunities.

Barzan Holdings' portfolio includes direct and indirect investments, early-stage venture capital investments, joint ventures and technology development programs that address the needs of different military and security sectors in the State of Qatar.

Barzan Holdings is chaired by His Excellency Sheikh Saoud bin Abdulrahman bin Hassan bin Ali Al Thani, the Deputy Prime Minister and Minister of State for Defense Affairs.

OUR VISION

To become a leading defense and security company and increase in country value by building a globally competitive defense industrial capability.

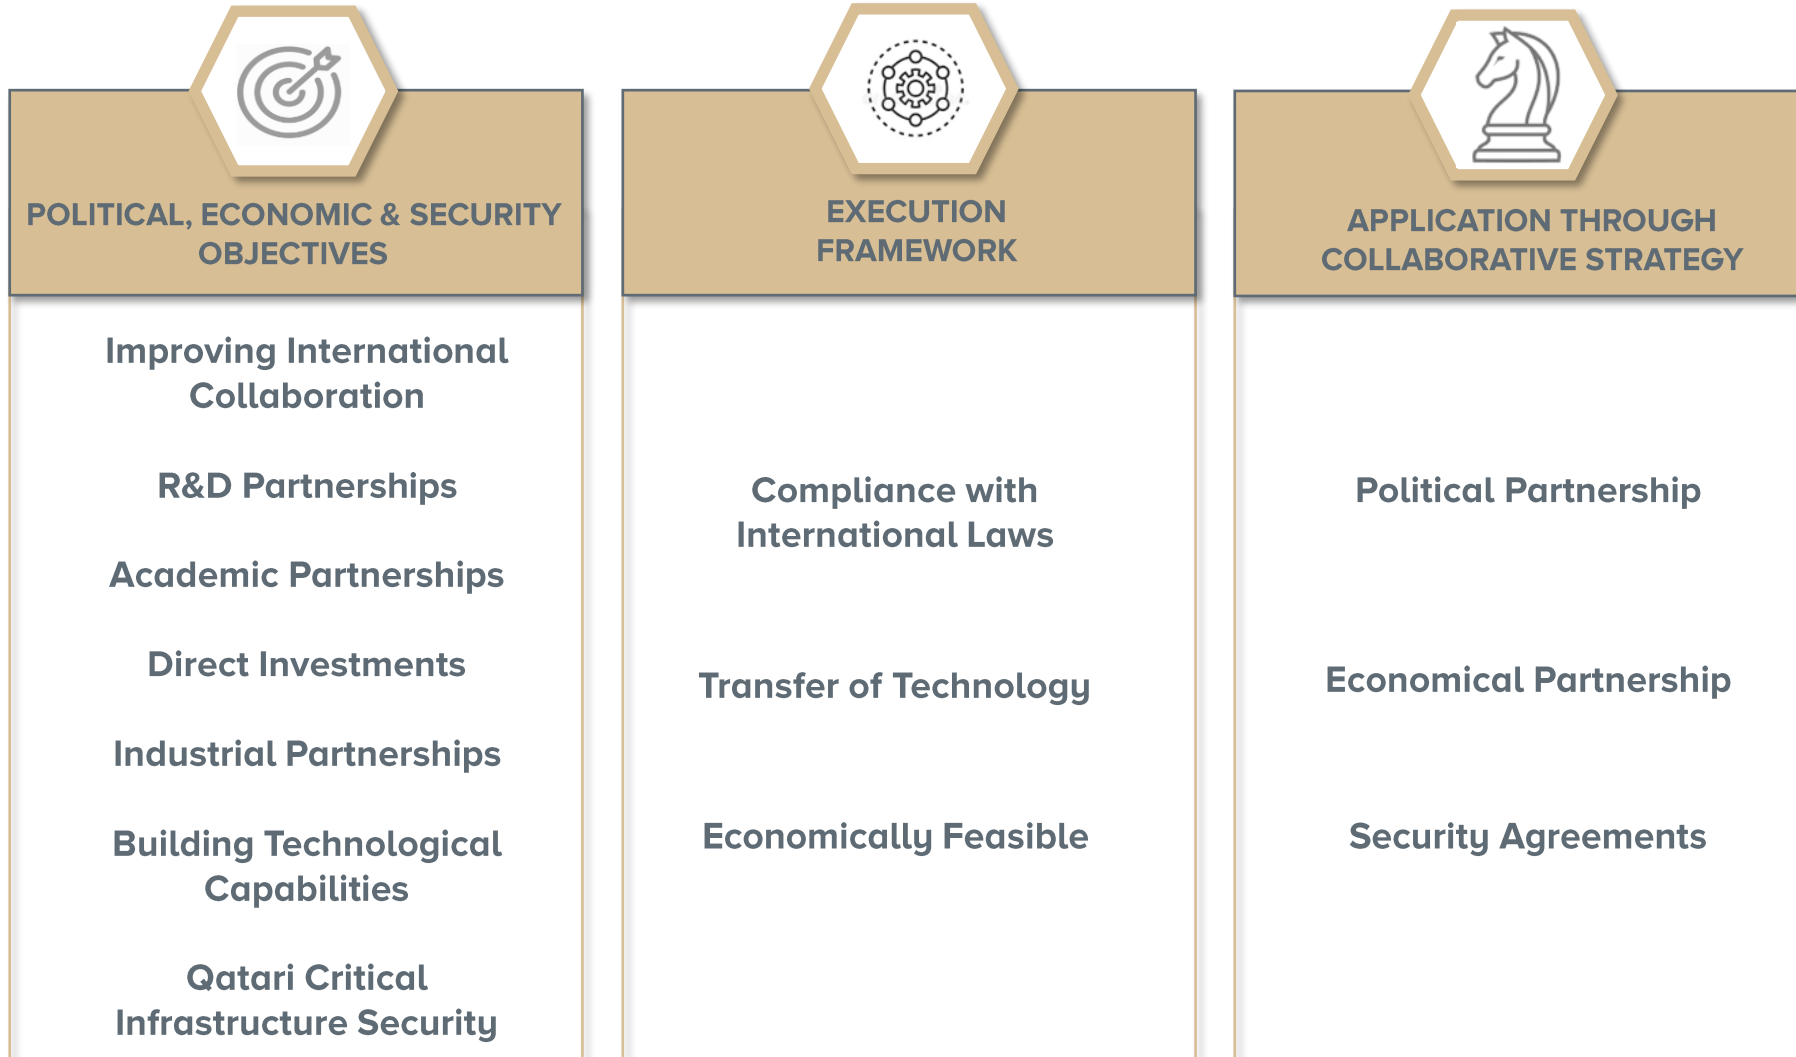

OUR MISSION

Our mission is to provide the highest quality defense solutions, products and services to serve our clients by advancing human capabilities, developing cutting-edge defense solutions, and delivering world class services efficiently.

OUR FOCUS

Classification | Internal

OUR STRATEGY

STRATEGIC CAPABILITIES

The Strategic Capability Department consists of five directorates, namely Project Engagement, Program Development, Program Management, Engineering and Systems, and Project Services.

Together these directorates are responsible for spearheading and delivering on:

- product development programs including in the fields of autonomous systems, C2, AI and so forth,
- acquisitions on behalf of the Qatar Armed Forces,
- products' and services' exports, and
- management and delivery (full-cycle) of all projects

With a vast range of country-wide programs, acquisitions and developments, the Strategic Capability Department acts as the gateway for multiple sections of the Armed Forces providing advisory, transaction, development and general support services.

INVESTMENT

The Investments Department oversees Barzan Holdings' investments into innovative and groundbreaking technologies that contribute to the sustainable long-term development of Qatar's defense industry.

With a diverse portfolio of investments in aerospace technology, manufacturing, services and trading, the department fosters knowledge exchange and adds value to Barzan Holdings' ever-evolving global network of partners and rich intellectual capital.

INVESTMENTS

BMC

BMC Otomotiv Sanayi ve Ticaret A.Ş is one of the largest commercial and military vehicle manufacturers, and was founded in 1964 in Turkey. BMC offers special solutions for the automotive and defense industries with its wide product range, qualified workforce and high production capacity at high quality standards.

BMC is designed with the flexibility to manufacture many commercial and defence industry vehicles with different configurations ranging from buses to trucks, and from armored vehicles protected against mines to tactical wheeled vehicles.

INVESTMENTS

Barer Corporate Yatirim Holding A.Ş. is an international corporation with strong and long-established investments in many strategic regions in the military technical textiles and production fields, and is owned by Barzan Holdings, the Amiri Guard, and Octay Ercan.

Barer Holding is an integrated company specializing in the production of military clothing, wearable accessories and highly specialized equipment, warehouse and logistics management, and military R&D.

INVESTMENTS

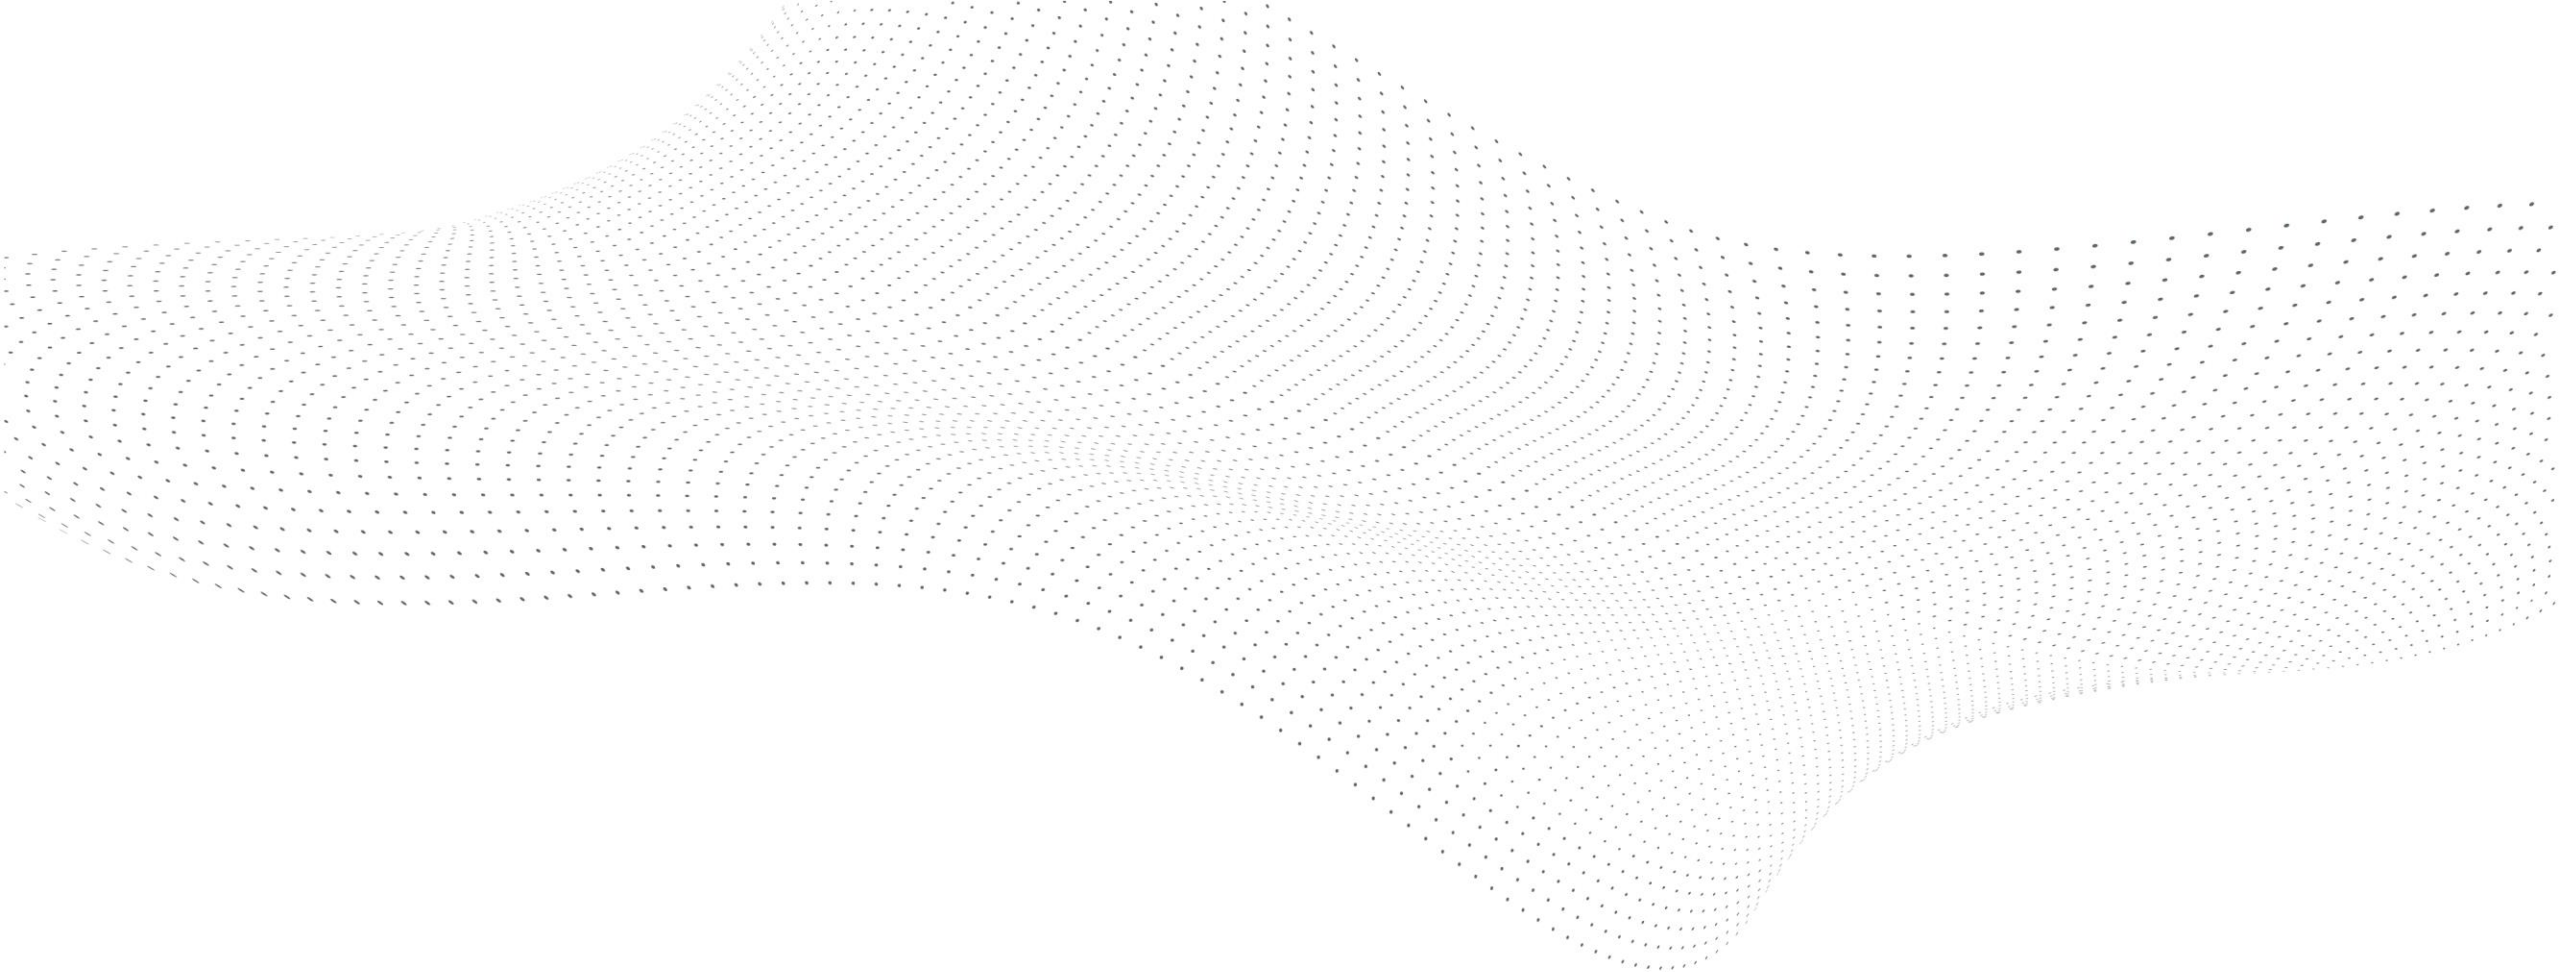

AERALIS is a British military jet developer and aerospace company working to deliver the world's first modular military aircraft system.

Featuring an open-architecture avionics system, and a common fuselage AERALIS aims to deliver a range of crewed and uncrewed defence aviation missions whilst significantly rationalising the cost of development, production, training, support and upgrade processes, all in support of net zero sustainability targets.

AERALIS offers a complete defence aviation solution spanning from basic flying to advanced training, as well as companion trainers to aggressor and light combat aircraft.
